## **Winning Technologies Receives Affinity Endorsement From Associated General Contractors of Greater St. Louis**

ST. LOUIS, MO – December 7, 2004 – The Associated General Contractors of St. Louis has entered into an alliance agreement with Winning Technologies as the Information Technology provider for a new membership benefit service. Winning Technologies is a nationwide full service IT Company based in O’Fallon, MO. The company has many years of experience working with the construction industry on a national and local basis.

“This is a great win-win for both Winning Technologies and AGC members,” said Scott Lewis, president of Winning Technologies. “The agreement provides us with exposure to AGC members and, at the same time, offers every member a 20 per cent discount on all our services.”

Lewis said in addition to the 20 per cent discount, members will receive an additional 10 per cent discount if they sign-up for a year-long support contract. Also up to five per cent of the revenue generated under this program will be donated to a charity. The donations will be split evenly between the Construction Careers Center and Winning Technologies Charities.

Winning Technologies offers a variety of services including systems management, IT security, technology systems audits, web development, Timberline estimating, disaster recovery, 24 x 7 Helpdesk, mobile satellite service and IT strategic planning.

In addition to its O’Fallon headquarters, Winning Technologies maintains several offices throughout the United States including Atlanta, Buffalo, Detroit, Las Vegas, Phoenix, Portland, Tampa, Wichita and several cities in California. The firm employs professionals who are experts in Information Technology. Serving the construction, healthcare, hospitality and other industries, they are skilled at identifying opportunities to maximize internal capabilities while enhancing a company’s bottom line. They help guide companies to the cutting edge technology solutions that best meet their business objectives. Their solutions help organizations maximize return on investment, streamline work processes and improve profitability.
