Winning Technologies Expands Local Offices

ST. LOUIS, MO – August 1, 2006 – Winning Technologies, a nationwide information technology consulting firm, announced they have expanded their offices at 147 Triad West in O’Fallon, MO. The firm has doubled the amount of square footage it utilizes and added additional conference areas, technology/repair areas, and more offices for employees.

“Our company continues to grow at a rapid pace and we needed more space to house our growing staff and equipment,” said Scott Lewis, president of Winning Technologies. “We were fortunate several adjoining offices became available. In all, the new offices will help us perform more efficiently and improve our overall operations as we continue our nationwide expansion.”

Winning Technologies employs professionals who are experts in Information Technology. Serving the construction, healthcare, hospitality and other industries, they are skilled at identifying opportunities to maximize internal capabilities while enhancing a company’s bottom line. They help guide companies to the cutting edge technology solutions that best meet their business objectives. Their solutions help organizations maximize return on investment, streamline work processes and improve profitability. In addition to O’Fallon (St. Louis), the firm maintains offices in Atlanta, Buffalo, Detroit, Houston, Phoenix, Tampa, and Wichita.
