FOR IMMEDIATE RELEASE.

Winning Technologies Inc joins St. Louis Regional Chamber and Growth Association

The St. Louis Regional Chamber and Growth Association boasts 4,000 members and represents a rapidly growing business community of local entrepreneurs. Its members include traffic schools, gift boutiques, large corporations and consulting firms. Now, Winning Technologies Inc joins an ever-growing group of active business professionals.

Scott Lewis, founder and CEO of Winning Technologies Inc, was thrilled when the St. Louis RCGA invited his company to join in September.

“It’s great that a business with so many resources gets the chance to share them with the business community in a forum such as the St. Louis RCGA,” Lewis said.

Winning Technologies provides high-end technology management solutions such as: Disaster Recovery, Systems Management, Security, Web Development and Web Hosting along with Public Relations Management. Winning Technologies is dedicated to assisting their customers reach success with their technology needs.

“Winning Technologies can offer these valuable services, and much more, to the business community and their customers,” Lewis said.
